

## POSITIVE INFLUENCE PREDICTOR

### A one-year subscription to the Tilt 365

Development should be ongoing and easily accessible, with the Tilt 365 PIP you have fast, easy access to your reports and assessments through our web app on the devices you already use.

### Tilt 365 Self-assessment

Explore how you've evolved since your early predispositions - your "Current Tilt", by a detailed look at all 48 of the Tilt traits.

### Continuous, real-time 360 Feedback as often as you like, 365 days a year

Rather than creating a "one and done" static report that dies in a drawer, Tilt 365 operates as a "live" user-driven dashboard for an ongoing transformational experience.

### Freedom to ask people to observe your character strengths at a pace you're comfortable with

Asking for feedback can be an intimidating process so our web app and subscription model allow you to request feedback whenever you want over the course of a year. Many of our clients decide to gather feedback 3-4 times each year, sometimes involving different stakeholders, to optimize growth and positive influence.

### Tilt 365 Personalized Report

The comprehensive report compares your self-assessment to how others see you in the world, indicating your top strengths, blind spots, hidden strengths, and much more. Deep and personal, yet immediately actionable, insights.

### Bonus resources to help facilitate your development

We're always looking into what's next, so we'll be providing you with free resources, insights, and tools on the latest trends in people innovation, including our "Weekly Challenge" tips focused on agility, balance, flow, and habit change.
